MISSION STATEMENT

Buntingford Civic Society aims to conserve and cherish Buntingford's historic buildings, distinctive heritage and environment in the town and in the surrounding ancient parishes of Layston, Aspenden, Wyddial and Throcking.

We seek to encourage and support quality design on any new residential and commercial developments that will enhance the town.

We strive to keep our members and non-members informed as to the Societies activities utilising the "Buntingford Journal" and our social media presence.

We wish Buntingford to be a thriving town centre with a sound cultural and economic base – an area that residents are proud of, and that people want to visit.
